

The Long Road by Pearl Jam

D
And I wished for so long, cannot stay...

D
All the precious moments, cannot stay...

D
It's not like wings have fallen, cannot stay...

D
But I feel something's missing, cannot say...

G
Holding hands are daughters and sons

G And their faiths just falling down, down, down, down... **D**

Em
I have wished for so long

A **D**
How I wish for you today

D
We all walk the long road. Cannot stay...

D
There's no need to say goodbye...

G
All the friends and family

G All the memories going round, round, round, round **D**

Em
I have wished for so long

A **D**
How I wish for you today

C
And the wind keeps roaring

G And the sky keeps turning gray **D**

C
And the sun is set

G The sun will rise another day... **D**

D
We all walk the long road. Cannot stay...

D
There's no need to say goodbye...

G
All the friends and family

G All the memories going round, round, round, round **D**

Em
I have wished for so long

A **D**
How I wish for you today

Em
How I've wished for so long

A **D**
How I wish for you today
