

Artist/Band: Colter Jessi Tabs
Song: Why You Been Gone So Long Tab

INTRO: D

D G D
Every time it rains Lord I run to my window

A

All I do is ring my hands and moan

The wolf is scratchin' at my door and I can hear the lonesome wind moan

Tell me baby why you been gone so long

CHORUS :

D G D
Tell me baby why you been gone so long you been gone so long now

A

Tell me baby why you been gone so long

Well the wolf he scratches at my door and I can hear the lonesome wind moan

Tell me baby why you been gone so long

Someone said they thought they saw you roarin' down in Reno
With a little girl from San Antone
They say I'm a fool to pine for you hey but what do they know
Tell me baby why you been gone so long

CHORUS

Nothin' I wanna do oh I guess I could get stoned
And let that past paint pictures on my head
I could kill a fifth of Thunderbird, write myself a sad song
Tell me baby why you been gone so long

CHORUS

D A G D
Tell me baby why you been gone so long
